Applications

PrintIt, Live [🔗](#) | GitHub [🔗](#)

- A full-stack application for 3D printing enthusiasts to share their prints with others.
- Built using **React, HTML, CSS, JavaScript, and Bootstrap**
- Designed and imported **PostgreSQL** database schema to handle all user data
- Implemented a back-end server using **Express.js** and **Node.js** to respond to **Fetch API** requests
- Deployed on **Heroku** using an **AWS Bucket** to store files

CheckMate, Live [🔗](#) | GitHub [🔗](#)

- A front-end application to help Chess.com users track their favorite players
- Entirely built using **HTML5, CSS3, and JavaScript**
- Optimized application for mobile and desktop viewports using **CSS3** media queries
- Accessed Chess.com public API with **AJAX** to retrieve player information
- Implemented **Lodash** in order to sort players by selectable parameters

Professional Experience

Operator, JKTPrints

JKTPrints is a 3D printing business that I started during COVID-19. The shop has 150+ sales with a 5-star rating from 50+ reviews.

- Design and print custom orders per client specifications.
- Maintain printers to ensure high product quality.
- Manage marketing and SEO for various e-commerce platforms (Etsy, Shopify).
- Used QuickBooks to track finances and manage productivity.

11/2020 – present
Torrance, United States

Commercial Research Associate, AIR Commercial Real Estate

AIR CRE is a real estate listing platform for commercial property.

- Marketed properties according to standards set by the company or the client.
- Updated active and closed listings per client's website.
- Collaborated with brokers to ensure material is marketed to their preferences.
- Updated hundreds of office, industrial, and retail listings on a weekly basis.

08/2018 – 03/2020
Orange, United States

Education

LearningFuze, Web Dev Full-Time Bootcamp

800+ hours coding (70+ hours/week) in a simulated work environment

Irvine, US

University of California, Irvine, Bachelor of Arts, Political Science, Cum Laude

Irvine, US
